RE: Earthwork Stockpile at the East End of Tract 6444

Dear Mr. Van Tassel

You recently inquired as to the source of the existing stockpile at the east end of Tract 6444. To my knowledge this stockpile was the result of excess material generated from Tract 6444 and 6498. Tract 6498 is just southeast of Tract 6444. However, after the initial grading of both Tracts, there has been some dumping of material of unknown origin. As I recall, these tracts were graded in 2006 and 2007.

If you have any questions, please call anytime.

Sincerely,

Matt VoVilla, P.E., QSD/P
